WHITEPAPER V1

# INTRODUCTION

FIRST MEME-UTILITY TOKEN ON HYPRA

Hypra Inu, the trailblazing, community-fueled, charity-minded, and totally dogetastic meme token on Hypra Network.

We're here to claim our title as the "DOGECOIN" of Hypra, making our mark as the ultimate meme mascot in this fantastic space.

Inspired by the pawsomeness of Floki Inu and Shiba Inu, Hypra Inu is ready to take a bite out of the charity scene by joining initiatives like dog rescue, making the world a better place for our four-legged friends. Our mission? To bring joy, excitement, and a sense of purpose to the incredible Hypra community. Let's make it a woof-tastic adventure together!

# ABSTRACT

More than just a meme — it's a way of life. Welcome to the world of Hypra Inu!

We didn't just create Hypra Inu to be another meme token. We birthed it with a grand vision of becoming a decentralized meme project with a meaningful purpose. Our mission at Hypra Inu is to bridge the gap between cryptocurrency enthusiasts and the mainstream world. Unlike older projects, we're all about introducing our holders to NextGen concepts. Think gamified NFTs, the magic of frictionless yield, and our commitment to real-life charitable endeavors.

Join us on this paw-some journey!

# \$HINU TOKEN

\$HYPRAINU is a deflationary token on the Hypra Network. The max supply is 100 million and the key functionality is its built-in liquidity acquisition, static rewards & burn mechanisms.

# TOKENOMICS

HYPRA INU employs 3 simple functions: Rewards + LP acquisition + Burns. In each trade, the transaction is charged a 5% fee, which is split in 3 ways.

💰 2% is dedicated to providing liquidity, strengthening our trading capabilities.

🔥 1% is committed to a deflationary burn, reducing the total supply and adding scarcity.

💼 2% is re-distributed back to our faithful holders in the form of \$HYP rewards.

Our tokenomics are meticulously engineered to enhance market performance and reward our dedicated community. Together, we'll reach for the moon! 🌕🚀

# UTILITIES
